

New South River Baptist Association Holiday Food Basket Ministry

Description of Ministry

Baskets are collected from churches and individuals during the month of November. The baskets are given out during the second week of December of each year. This enables us to meet a greater need of food for families in the period between Thanksgiving and Christmas. The baskets are given with the items listed below in addition to a ham or turkey breast which is provided by the New South River Baptist Association.

Application Information

Applications are available each November and can only be received from and must be returned to a location of the *Beatitude House Ministry*. Individuals or churches can request an application. If a church wishes to have applications to use in ministering to families in their community, they may contact the *Beatitude House* location closest to them, during normal operating hours, and request applications. We ask that each church only submit five (5) applications maximum, so that we can minister to as many different families and areas as possible.

Please bring all Baskets and Applications to one of the Beatitude House locations listed
